

WE ARE UNIQUE MINING

Unique mining is a world class mining company established for the purpose of eradicating the stress and the high cost of personal mining by individuals through cloud mining, this noble project was achievable after the successful series and constant studies about cryptocurrency and bitcoin in particular. The company is co-owned by prominent individuals of expertise on cryptocurrency and big time investors with various qualifications on accounting, statistics, mathematics and other scientific disciplines.

We are also committed towards improving the living standard and uplifting the financial status of our esteemed investors cross the globe through bitcoin mining.

WHAT IS CLOUD MINING

Cloud mining is the process of bitcoin mining utilizing a remote datacenter with shared processing power. This type of cloud mining enables users to mine bitcoins or alternative cryptocurrencies without managing the hardware. The mining rigs are housed and maintained in a facility owned by mining company and the customers simply needs to register and purchase mining contracts or shares. Since cloud mining is provided as a service there is generally some cost and this can result in higher returns for the miner.

OUR MISSION

Bitcoin is based on a protocol known as the blockchain, which allows to create, transfer and verify ultra-secure financial data without interference from third parties. While Unique Mining has the mission and target of having representatives across "99" countries in the next five years time.
